

Third airman involved in helicopter crash found in Croatia

According to information provided by the Ministry of Defence, the third crewmember of the helicopter that had on Wednesday in the line of duty was also found under the wreckage of the on Thursday afternoon.

The on-site inspection is still ongoing together with the Croatian and Hungarian The wreckage and all pieces found in the area will be collected and transported to Hungary for further analysis. The mortal remains of the Hungarian – similarly to those of his two comrades found earlier – will be transported to Split.

At the Croatian location, the Chief of the HDF General Staff was personally informed about the process and circumstances of the, but his most important goal was to meet the personnel present on the spot.

Lieutenant General Gábor Böröndi informed the press that the entire personnel participating in the training would home by land in the coming days.

He said that the site of the accident is extremely difficult, which significantly complicates the process of the search and rescue and the investigations. This is why the comprehensive is expected to take longer, also due to physical exposure, he added.

The Chief of the General Staff emphasized that for this reason, it is not yet possible to the speculations published in the press, and the circumstances of the accident will be determined by a Croatian—Hungarian expert committee on the spot.
