

We traveled to Paris in 2017. It was **wonderful** traveling and we saw many sightseeings, such as: the Eiffel Tower, Disneyland and famous bar Moulin rouge.

This bar is unique because there performed **famous** dancers and singers. This bar exists nowadays too. Main difference of this bar is very **beautiful** show. People in **colorful** costumes dance cancan. Usually, tickets are expensive, but this performance is so **nice** and **amazing** that everyone should go there.

Actually, if you visit Paris at noon you can not to notice the Moulin rouge, but at night this bar becomes a marvelous place with shining lights and **special** atmosphere. Many artists paint this bar on their pictures. I think, it's place which never out of date.
