3 Digit Addition

```
   5 9 5          5 9 4          5 9 3
 + 9 6 8        + 9 7 8        + 9 9 8
```

```
   5 9 9          6 7 8          8 7 6
 + 9 7 8        + 5 4 3        + 5 5 5
```

a) On Tuesday night Jimmy looked into the sky with his telescope. He counted 734 stars. On Friday night he counted 679 stars. How many stars did Jimmy see in all?

b) Tessa accidently spilled container full of skittles. As she was picking them up, she counted 523 red ones and 598 green ones. How many skittles were spilled altogether?

c) Shane was surprised when the announcer said there were 795 people at his baseball game on Sunday. Last Sunday, there were only 655 persons there. How many people attended the games in total?
