

Function, Domain & Range Interactive Worksheet

1. State how each diagram is expressed, a set of ordered pairs, a mapping diagram, a table of values, a graph, an equation or a paragraph..
2. Decide if each relation below is a function (yes) or not (no).
3. State the Domain and range of each relation, using the appropriate notation form. Please note the set of brackets $\{ \}$ are not interchangeable with ordered pair brackets $()$.

$\{(2,3),(3,3),(-1,3),(0,3),(-4,3)\}$	
Expressed as: Function : Domain: Range:	Expressed as: Function : Domain: Range:
