

MICRO ORGANISMS

SCHOLARSHIP APTITUDE TEST DAILY NMMS TEST 1

PREPARED BY R GOPINATH BT ASST KADAMBATHUR BLOCK THIRUVALLUR DISTRICT PH.9578141313

1

CHOOSE THE CORRECT ANSWER FOR THE FOLLOWING QUESTIONS

1.	Which of the following is a microorganism? a) Butterfly b) Bacteria c) Lion d) Mushroom			
2.	What is the smallest type of microorganism? a) Virus b) Bacteria c) Fungi d) Protozoa			
3.	Which of the following microorganisms is unicellular? a) Bacteria b) Fungi c) Virus d) Algae			
4.	What is the role of decomposers in an ecosystem? a) Produce oxygen b) Break down dead organisms c) Cause diseases d) Help in photosynthesis			
5.	Which of the following microorganisms causes malaria? a) Bacteria b) Fungi c) Virus d) Protozoa			
6.	Which microorganism is responsible for yeast infections? a) Bacteria b) Fungi c) Virus d) Algae			
7.	Which microorganism is used to make yogurt? a) Bacteria b) Fungi c) Virus d) Algae			
8.	What is the process of converting sugar into alcohol called? a) Fermentation b) Photosynthesis c) Respiration d) Reproduction			
9.	Which of the following microorganisms is used in the production of bread? a) Bacteria b) Fungi c) Virus d) Algae			
10.	Which of the following diseases is caused by a virus? a) Tuberculosis b) Tetanus c) Influenza d) Malaria

2

CHOOSE THE CORRECT ANSWER FOR THE FOLLOWING QUESTIONS

11.	Which of the following microorganisms can perform photosynthesis? a) Bacteria b) Fungi c) Virus d) Algae			
12.	Which microorganism causes the common cold? a) Bacteria b) Fungi c) Virus d) Protozoa			
13.	What is the function of antibiotics? a) Kill viruses b) Kill bacteria c) Kill fungi d) Kill algae			
14.	Which of the following microorganisms can live in extreme environments like hot springs? a) Bacteria b) Fungi c) Virus d) Protozoa			
15.	Which microorganism is responsible for the disease known as tuberculosis? a) Bacteria b) Fungi c) Virus d) Protozoa			
16.	What is the process of converting atmospheric nitrogen into a usable form called? a) Nitrogen fixation b) Fermentation c) Respiration d) Reproduction			
17.	Which of the following microorganisms is responsible for the disease known as cholera? a) Bacteria b) Fungi c) Virus d) Protozoa			
18.	Which microorganism is responsible for the formation of vinegar? a) Bacteria b) Fungi c) Virus d) Algae			
19.	What is the name given to the process of bacterial reproduction where a small part of the parent cell pinches off to form a new cell? a) Binary fission b) Budding c) Fragmentation d) Sexual reproduction			
20.	Which microorganism causes dental cavities? a) Bacteria b) Fungi c) Virus d) Algae

3

CHOOSE THE CORRECT ANSWER FOR THE FOLLOWING QUESTIONS

21.	What is the process of using microorganisms to break down harmful substances called? a) Bioremediation b) Fermentation c) Photosynthesis d) Decomposition			
22.	Which of the following microorganisms is responsible for the disease known as the black plague? a) Bacteria b) Fungi c) Virus d) Protozoa			
23.	What is the term for a disease-causing microorganism? a) Pathogen b) Antibiotic c) Vaccine d) Antibody			
24.	Which microorganism causes the disease known as malaria? a) Bacteria b) Fungi c) Virus d) Protozoa			
25.	What is the process of using microorganisms to break down harmful substances called? a) Bioremediation b) Fermentation c) Photosynthesis d) Decomposition			
26.	Which of the following microorganisms is responsible for the disease known as the common cold? a) Bacteria b) Fungi c) Virus d) Algae			
27.	What is the process of converting light energy into chemical energy in plants and some microorganisms called? a) Photosynthesis b) Respiration c) Fermentation d) Reproduction			
28.	Which microorganism is responsible for the production of alcohol in beer and wine? a) Bacteria b) Fungi c) Virus d) Algae			
29.	What is the name given to a substance that stimulates the production of antibodies to provide immunity against a specific disease? a) Vaccine b) Antibiotic c) Pathogen d) Toxin			
30.	Which of the following is an example of a chemical change? a) Boiling water b) Chopping wood c) Burning a candle d) Dissolving salt in water

4

CHOOSE THE CORRECT ANSWER FOR THE FOLLOWING QUESTIONS

31.	What is the process of using microorganisms to convert sugar into acids, alcohol, or gases called? a) Fermentation b) Decomposition c) Photosynthesis d) Respiration			
32.	Which of the following microorganisms is responsible for the disease known as the black plague? a) Bacteria b) Fungi c) Virus d) Protozoa			
33.	What is the term for a disease-causing microorganism? a) Pathogen b) Antibiotic c) Vaccine d) Antibody			
34.	Which microorganism causes the disease known as malaria? a) Bacteria b) Fungi c) Virus d) Protozoa			
35.	What is the process of using microorganisms to break down harmful substances called? a) Bioremediation b) Fermentation c) Photosynthesis d) Decomposition			
36.	Which of the following microorganisms is responsible for the disease known as the common cold? a) Bacteria b) Fungi c) Virus d) Algae			
37.	What is the process of converting light energy into chemical energy in plants and some microorganisms called? a) Photosynthesis b) Respiration c) Fermentation d) Reproduction			
38.	Which microorganism is responsible for the production of alcohol in beer and wine? a) Bacteria b) Fungi c) Virus d) Algae			
39.	What is the name given to a substance that stimulates the production of antibodies to provide immunity against a specific disease? a) Vaccine b) Antibiotic c) Pathogen d) Toxin			
40.	Which microorganism is responsible for the disease known as tetanus? a) Bacteria b) Fungi c) Virus d) Protozoa
