Task 2: Read and choose a word from the box. Write the correct word.

The Future

What do you think the future will be like?

Rob, 10

There won't be much land, so there will be big cities and we will travel in submarines. I think some houses will be underground, too, but I won't live in an house. I'll live in an underwater house with glass walls. I will see fish swimming around!

Lara, 10

I agree with Rob. There won't be many parks or green spaces. There will be lots of cars and planes, so pollution will be very bad. We won't have a lot of fresh food, so people will eat lots of junk food. There will be too.

Jim, 11

I disagree. I think the world will be a cleaner place in the future, because we won't use petrol or other . We will use from the sun to power our cars and houses. I think cars will be very fast and some cars will fly, too!

Jasmine, 11

I think computers will be very small in the future. We will have computers in our clothes and we will use our voices to them. We'll learn lots of interesting things. We will use to study. We won't go to school, but we'll meet our teachers and friends in cool virtual places to learn about the world.
