B. WRITING

Reading: Read the text below and answer whether the sentences are TRUE or FALSE. Write TRUE or FALSE as answers.

Recently, my nine-year-old son proudly announced to me that he wanted to become a commercial airline pilot when he grows up. I'm happy for him because he spends hours reading books about airplanes, and he loves to play airplane game apps. It's great to know what career you want at such a young age. As well, the average annual salary for an airline pilot is quite good: US$105,270. Also, being an airline pilot means that you might travel to many exotic locations around the world, places that most people might never get a chance to see.

However, I wonder if his choice of career is one that I should encourage. You see, this morning I googled "most stressful jobs" and I discovered that my son's dream career is actually the third most stressful job on a list of ten most stressful jobs. This makes sense because as a pilot you are responsible for the lives of hundreds of people, you are away from home for many days at a time, and you may have to fly through many different time zones which can be very difficult to adjust to. Number one on the list was "military personnel" (solider) and number two was "firefighter". Of course, jobs like these are very dangerous – you must put your life in danger almost daily. Interestingly, however, "taxi driver" was also on the list (at number ten).

31. The nine-year-old son is interested in airplanes as he reads books and play games related to airplanes.

32. According to the article, you can make more than US$100,000 per month as a pilot.

33. The father thinks that exotic countries are dangerous for most pilots.

34. The father found a list online saying it was more stressful to be a solider than a firefighter.

35. "Taxi driver" ranks third on the list of top ten stressful jobs.
