LIVEWORKSHEETS

ACTIVITY 3: Situation. Write complete sentences. (6 min)

5 **Imagine you are spending a year working and travelling in Australia. Make notes about the following. Then compare your experiences with a partner.**

1 How long have you been there?
2 What experiences have you had?
3 How have you been traveling around?
4 What job have you been doing?
5 What has most interested or impressed you about Australia?

ACTIVITY 4: Choose the correct alternative.

Researchers **have just found / first found** the lost city of Angamuco in western Mexico in 2007. The Purepecha people, who **have built / had built** the city near a lake over 1,000 years before, lived there until the 16th century.

Now, U.S. archaeologist Chris Fisher and his team **have revealed / have been revealing** evidence of more than 40,000 buildings which made up the ancient city, as well as roads, pyramids, gardens, and open squares.

Fisher and his team have been mapping the area **for / since** 2009. They **have used / have been using** high-tech laser technology called LiDAR which produces detailed 3D images of ancient structures hidden underground. LiDAR is over 30 years old, but the technology **has only recently become / has only recently been becoming** good enough to create very complex pictures.

How many more of these ancient treasures **had we not discovered / have we not discovered** yet?
