

4TH GRADE – MATHS

ADDING AND SUBTRACTING LARGE NUMBERS

INTERACTIVE WORKSHEET 03

I. Subtract the following and write the missing digits

1. $28,786 - 14,547 = 14 \underline{\hspace{1cm}} 3 \underline{\hspace{1cm}}$
2. $2,80,560 - 1,76,410 = 1 \underline{\hspace{1cm}} 4 \underline{\hspace{1cm}} 5 \underline{\hspace{1cm}}$
3. $4,05,009 - 3,09,007 = 96 \underline{\hspace{1cm}} \underline{\hspace{1cm}} \underline{\hspace{1cm}}$
4. $94,312 - 76,400 = 1 \underline{\hspace{1cm}} 9 \underline{\hspace{1cm}} 2$
5. $7,19,876 - 4,45,948 = \underline{\hspace{1cm}} 7 \underline{\hspace{1cm}} 9 \underline{\hspace{1cm}} \underline{\hspace{1cm}}$
6. $45,280 - 17,571 = 2 \underline{\hspace{1cm}} 7 \underline{\hspace{1cm}} 9$

II. Subtract the following :

$$\begin{array}{r} 7. \quad 3 \quad 3 \quad 8 \quad 1 \quad 0 \\ - 1 \quad 9 \quad 8 \quad 2 \quad 4 \\ \hline \hline \end{array}$$

$$\begin{array}{r} 8. \quad 8 \quad 8 \quad 2 \quad 4 \quad 5 \\ - 4 \quad 2 \quad 9 \quad 8 \quad 3 \\ \hline \hline \end{array}$$

$$\begin{array}{r} 9 \quad 4 \quad 2 \quad 3 \quad 5 \quad 3 \quad 1 \\ - 1 \quad 3 \quad 7 \quad 8 \quad 4 \quad 5 \\ \hline \hline \end{array}$$

$$\begin{array}{r} 10. \quad 7 \quad 5 \quad 6 \quad 2 \quad 4 \quad 3 \\ - 4 \quad 1 \quad 8 \quad 5 \quad 7 \quad 8 \\ \hline \hline \end{array}$$
