G. Read the article. Decide if the sentences are true (T) or false (F).

Eating in the dark!

There is a restaurant in London where the guests eat meals in the dark. The restaurant, called In the Dark, has no lights so people cannot see the food or each other. The waiters are blind – they cannot see. When customers want something, they call the waiter's name. Customers have to follow the restaurant rules. For example, you should try to talk quietly and you can't use your phone. People choose from four menus, but they don't know what the food is. The blue menu is fish, red is meat, green is vegetarian and white is the chef's surprise!

After dinner, the guests have coffee in another room with lights. The waiters tell them what food they ate and show them pictures. The idea is to make eating connected more to taste and smell and to give an unusual experience. If you are visiting London you should go. Remember that it is very popular with tourists and Londoners so you should book a table at least a week before.

1. The waiters can see the customers. _____
2. Customers choose from a fish or meat menu. _____
3. In the Dark is not a normal restaurant. _____
4. Visitors to London love this restaurant. _____
5. In the Dark isn't busy during the week. _____

H. Read the article again. Complete the sentences with one word from the text.

1. There aren't any _____ in the restaurant.
2. Customers choose meals from different _____.
3. The restaurant wants guests to speak _____.
4. People who are _____ should choose the green menu.
5. After eating, guests can see _____ of the food.
