DEV JOB DESCRIPTION

About the job

We are a digitally native technology services company where innovation, design and engineering meet scale. We use some of the latest technologies in the digital and cognitive field to empower organizations in every aspect.

Right now, we are looking for .Net Developers to join our team at Globant!

You will get the chance to:

- Work with professionals who have created some of the most revolutionary solutions in their fields.
- Make an impact. Work in large-scale projects globally.
- Develop your career in our Studios. Each Studio represents deep pockets of expertise on the latest technologies and trends and delivers tailored solutions focused on specific challenges.
- Develop your career within an industry or multiple industries.
- Work in the city you want, and be nourished by cultural exchanges.
- Be empowered to choose your career path: we have more than 600 simultaneous projects, so you can choose where and how to work.
- Be part of an agile pod. Driven by a culture of self-regulated teamwork, each team -or POD- works directly with our customers with a full maturity path that evolves as they increase speed, quality and autonomy.

What will help you succeed:

- Believe and love what you do.
- Make "No's" become "What ifs".
- Have imagination and love innovating.
- Being flexible & goal oriented.
- Being capable of taking a step back to look at a bigger picture.
- Upper Intermediate English skills.
- Experience in application's design using .NET Core.
- Solid knowledge using LINQ and Entity Framework (or other ORM).
- Strong knowledge using Azure.
- Experience in development and integration with RESTful APIs.
- Knowledge in SQL Server, SQL Server Reporting Services (SSRS) or SQL Server Integration Services (SSIS).
- Experience with Microservices.

At Globant we believe that an inclusive culture and a diverse environment makes us stronger. We encourage people to have an inclusive spirit as our global footprint expands. We seek to generate a place of inspiration and growth for everyone. A safe space, based on equity as a value, where everyone's careers can be promoted and developed in the same way. There is no innovation without diversity and there is no improvement without plurality.
