

SUPERHEROES

SPIDER-MAN

Based on Marvel Comics' superhero character, this is a story of Peter Parker who is a nerdy high-schooler. He was orphaned as a child, bullied by jocks, and can't confess his crush for his stunning neighborhood girl Mary Jane Watson. To say his life is "miserable" is an understatement. However, one day while on an excursion to a laboratory a runaway radioactive spider bites him... and his life changes in a way no one could have imagined. Peter acquires a muscle-bound physique, clear vision, ability to cling to surfaces and crawl over walls, shooting webs from his wrist ... but the fun isn't going to last. An eccentric millionaire Norman Osborn administers a performance-enhancing drug on himself and his maniacal alter ego Green Goblin emerges. Now Peter Parker has to become Spider-Man and take Green Goblin to the task... or else Goblin will kill him. They come face to face and the war begins in which only one of them will survive at the end.

DEADPOOL

Wade Wilson is a small-time mercenary. He meets Vanessa and falls in love. Life is idyllic until one day he is diagnosed with terminal cancer. Things look bleak but a man appears who says he can be cured, through a treatment that gives him superhero powers. After initially turning him down, Wilson agrees, and meets the man behind the project, Ajax. While undergoing the treatment he discovers that it will involve him becoming a mutant, and he will need to undergo several painful tests to discover what his mutant abilities are. In addition, Ajax is a sadist. The treatment results in Wilson getting powers of accelerated healing but also leaves him terribly disfigured. Ajax tries to keep him a prisoner but he escapes. He now has two aims: find Vanessa and make Ajax pay for what he did to him. Killing Ajax may not be as easy it seems, as Ajax is also a mutant and the meddling superhero Colossus and his sidekick Negasonic Teenage Warhead keep getting in the way. Oh, and Wade Wilson is now operating under an alias: Dead pool.
