Telling Time

The blue short hand is the hour hand. It tells us the hour.

The red long hand is the minute hand. It tells us the minute.

There is more than one way to show time. We use a clock face and we use numbers. When we use numbers it looks like this- 7:00. 7:00 is the same as 7 o'clock with the hour hand on the 7 and the minute hand on the 12.

What is the number time for each o'clock?
