

## Writing

## 1 Read and mark (✓) the best title for this opinion essay.

1 **These / Those** days, a lot of people keep animals at home. Some people think that we will keep robot pets in the future. This might happen, but I don't believe it.

2 On the other **arm / hand**, I agree that it might be easier to look after a robot pet rather than a real pet. For **exam / example**, you won't have to take a robot dog out for a walk every day.

3 **However / How**, robot pets can't take the place of real pets. They might look like real animals, but they won't think like our pets. They won't love us like our pets do!

4 In **summary / finish**, people will continue to have pets. I think that some people might have robot pets, but I **opinion / believe** that most people will still prefer to have a real animal at home.

Will we still have pets in the future?

Will people keep robots as pets in the future instead of real animals?

Will robots keep people as pets in the future?

## 2 Read again and circle the correct options.

## 3 Read again and match the paragraph numbers to the descriptions.

1. Paragraph 1	a. Ideas that answer "yes" to the question
2. Paragraph 2	b. Introduction
3. Paragraph 3	c. Conclusion (my opinion)
4. Paragraph 4	d. Ideas that answer "no" to the question
