

$$\frac{\overset{\cdot}{3} \square}{4} - \frac{\overset{\cdot}{1} \square}{3} = \frac{\square}{\square} - \frac{\square}{\square} = \frac{\square}{\square}$$

$$\frac{\square}{\square} : \frac{\square}{\square} = \frac{\square}{\square}$$

$$\frac{\square}{\square} : \frac{\square}{\square} = \frac{\square}{\square}$$
