TASK 6. READING. Read and tick TRUE or FALSE

Would you like a robot in your house? It is now generally accepted that in the future robots will take over many of our tasks especially jobs of a repetitive nature. But it's doubtful if robots will ever be able to do any of the more creative types of work - or indeed if people would want them to. In the home, robots would probably be used to do the cleaning table-laying scrubbing and washing up, but it's considered unlikely so far that they'll be used to do the cooking - at least not in the near future. Robots in the home might not be creative enough to do the cooking, plan the meals, and so on. They would be used as slaves, thereby freeing people to do more of the things they want.

STATEMENTS	TRUE	FALSE
29. It is thought that robots will be able to do the same jobs every day.		
30. It is certain that robots will be able to help us with creative tasks.		
31. Robots will help us do some of the housework such as washing dishes.		
32. Robots would be able to do more than people want..
