

**Listening: Listen to the man talking about transportation. Fill in the blanks with the missing words. (1-2 words)**

Transportation hasn't (1) \_\_\_\_\_ a lot in the past 100 years. When you think about changes in other areas of our life, transportation is (2) \_\_\_\_\_ the same as it was years ago. OK, cars, trains and airplanes are (3) \_\_\_\_\_, but they're not so different than they were 50 years ago. Take airplanes, for example. I think air travel has got (4) \_\_\_\_\_. Fifty years ago, people flew and were given (5) \_\_\_\_\_. Today, you are like sardines in (6) \_\_\_\_\_. And look at cars. The cars from fifty years ago (7) \_\_\_\_\_ than today's ones. They still had four wheels, used petrol and had a steering wheel. I think transportation will really only change when it becomes (8) \_\_\_\_\_. I'm waiting for my own jet pack of mini-copter.
