READING COMPREHENSION

Teacher Paula

Elsa is a character from a cartoon movie called "Frozen." She is a beautiful and elegant girl. She has very long blonde hair and blue eyes. She always wears a shiny blue dress and a long cape made of ice.

What's most special about Elsa is that she has a magical power: she can make ice and snow with her hands. When she does it, her hands glow, and she can create things like ice castles.

At the beginning of the movie, Elsa tries to hide her powers and doesn't show them to anyone, even her sister Anna. But later on, she learns to control them and discovers how important love and family are.

Elsa is a very famous character who sings a well-known song called "Let It Go." She teaches us that it's important to be yourself and accept who you are. Many people love Elsa and the movie "Frozen."
