Brushing Teeth	_____	7
Watering grass	_____	9
Dishwasher	_____	11

\_\_\_\_\_

**Did you know?**  
Home water use makes up a bout 5% of total water use worldwide.

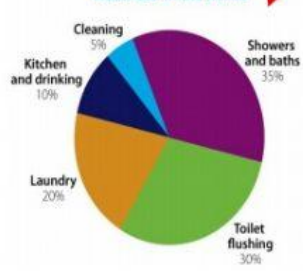

Domestic water use in Canada.

**Water Cycles**

Every plant and animal on Earth needs water. People use water the most. The more people there are, the more water is used. Water moves through the **environment**. This means water never goes away. We can not get the same amount of water in one place every year. The amount of water on Earth does not change, but in some places there is not enough water, and in others, there is too much. Also, in some places, you might not be able to drink the water because it is **polluted**.

\_\_\_\_\_

**Water use in the home**

**Environment:** where a person or animal lives

**Harm:** to do something bad to someone

**Pollute:** to put bad things into the water or air
