

## My family

Hello, everyone! Today, I want to tell you about the jobs my family members have and the things they do every day.

My dad is a doctor. He works at a hospital and takes care of sick people. He helps them feel better and stay healthy. It's an important job that requires a lot of knowledge and compassion.

My mom is an office worker. She works in a bank. She helps people with their money and keeps important records organized. Her job requires attention to detail and good communication skills. My older sister is a cashier. She works at a store and helps customers check out their items. She is friendly and handles money with care.

My uncle is a factory worker. He works in a big factory where things are made. He operates machines and ensures that everything runs smoothly. It's a busy and important job.

My grandpa is a farmer. He has a farm where he grows crops and takes care of animals. He works hard to provide food for people. Farming requires patience and love for nature.

My grandma works as a waiter at a restaurant. She takes orders from customers and brings them delicious food. She is always polite and makes sure everyone has a great dining experience.

I am a student. Sometimes, I help out, too! I set the table before meals, water the plants in our garden, and walk our family dog. These are my responsibilities at home, and I take pride in helping my family.

At home, we all have chores to do. My mom and dad take turns doing laundry, while my sister and I put away groceries and carry bags. We all take turns sweeping the floor, washing the dishes, and taking out the trash. These chores teach us responsibility and how to work together as a team.

Each member of my family has an important role in our home and in their jobs. We all contribute to make our family and community better.

Thanks for listening to my family's jobs and responsibilities!
