

To find the area of a rectangle, use the formula **length x width = area.**
This formula is often written as $l \times w = A$.

The rectangle pictured here has a length of 10 cm and a width of 8 cm.
l = 10 cm
w = 8 cm
10 cm x 8 cm = 80 cm^2

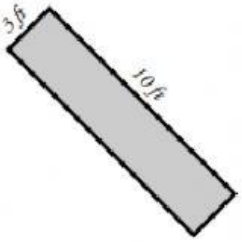

Note that the area's unit is written as cm^2.
This is said as "square centimeters" or "centimeters squared".

Find the area of each rectangle.

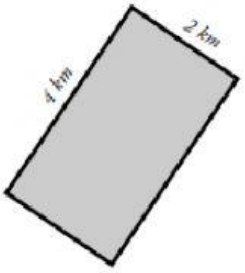

a.

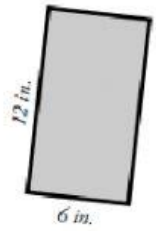

b.

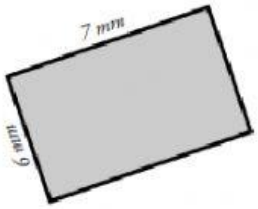

c.

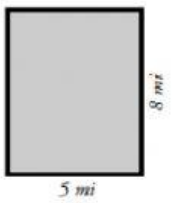

d.

e.

f.
