§1. Watching wooden dolls come to life may not be one of the most popular forms of entertainment today, but with over twenty years' experience, talented puppeteer (кукольник) Peter Roberts has earned himself the title 'master puppeteer' due to his extraordinary ability to transform puppets into believable, almost living characters. "People are quite often surprised to hear what I do for a living and have little appreciation of puppetry as a form of entertainment.

But puppet theatre has been popular in many cultures and may have been the very first kind of theatre," he explains.

§2. As Roberts writes his own scripts and musical scores, his shows are highly original. "A puppet show can involve anything from clowning to storytelling," he explains. Equally varied is the audience he performs for. Roberts believes that this form of entertainment crosses international boundaries and can be **appreciated** by people of all ages and cultures.

§3. Roberts' fascination for puppets started when he received some beautiful glove puppets one Christmas. He started putting on shows with these for family and friends and then moved on to handmade Chinese string puppets. Learning mostly from books and personal experience, he continued with his 'hobby' while studying for a degree in architecture. "By the time I left university," he explains, "I was already spending most of my free time carving puppets and putting on shows in the community, so I hardly noticed the transition from student to full-time professional puppeteer. I realised I had long since **abandoned** all thoughts of pursuing any other career!"

§4. The puppets are designed specifically for each show, which is extremely time-consuming. Each one is carved out of English limewood and then painted. Some of his 'characters' appear in exhibitions; others are used for puppeteering workshops. Anyone interested in puppetry can be trained to assist, and not just with the actual puppet making. Puppet theatre companies in the UK are usually small, but each one still needs writers, performers, musicians and even sound and lighting engineers.

§5. When most people hear the word 'puppetry', they more than likely think of a way of keeping children entertained at birthday parties. However, Roberts is keen to point out that puppet theatre can often be used as an effective educational tool. "Through the mouths of puppets come serious messages sometimes," he says.

A37. What do we learn about puppet theatre in the first paragraph?

- 1) Its value as an art form is not fully recognized.
- 2) It has always been highly valued as a kind of theatre.
- 3) It is gaining popularity.

A38. Roberts started working as a professional puppeteer

- 1) while he was still a student.
- 2) when he realized he didn't want to be an architect.
- 3) after doing a puppetry course.

A39. The writer informs those who might be interested in puppetry that

- 1) they would need to be able to work well in a team.
- 2) there are more ways to get involved than you might think.
- 3) only a few people can get involved.

A40. What would Roberts like people to understand about puppet theatre?

- 1) It can be educational as well as entertaining.
- 2) It's not just a thing of the past.
- 3) Its main purpose should be to educate.

*'Body image' is the picture you have in your mind of your size, shape and general appearance — and how you feel about it. Where does this image come from? Lifestyle adviser Anne Banks examines the issues.*

Do you love what you see in the mirror? No? Then you are not alone. Almost everybody worries about what other people think, and we all get stressed out about the size of our feet or the shape of our nose.

It's the images we see in the media that are mostly to blame. **(A43)**..... Whether it's a hunky actor in designer jeans and trendy jacket or a stunning model in an elegant dress, they're sending the same message: 'If you look like me, your life will be perfect.'

But appearances can be deceptive. Compare today's magazine covers with those of fifty years ago. **(A44)** ..... Not any more! Nowadays, blemishes are removed from photographs with the help of a technique called 'airbrushing'. A photographer or designer can straighten teeth, alter skin colour, and even change a hairstyle. That perfect face is just a trick of the camera after all!

The 'perfect' body shapes aren't natural, either. Go down to any gym and you'll find young men 'pumping iron' in an effort to live up to some masculine ideal that says that 'real' men should be strong and muscular. Body builders, desperate to increase the size of their muscles, often eat food with far more calories and protein than is natural, which is a danger to their health. **(A45)** .....

It's the same for the girls. We all know of celebrities who go on starvation diets so that they can wear 'size zero' clothes. They end up ruining their health. The irony is, naturally curvy girls who diet until they're stick-thin actually end up looking awful. Ask boys! **(A46)** .....Unfortunately, some girls are so obsessed with their weight they just don't realise!

**(A47)** ..... These include pop singers like Mis-Teeq, Jamelia, and Rachel Stevens. Rachel Stevens doesn't want to be stick-thin. 'There's always been this pressure to be skinny, but you've got artists now like J-Lo and Beyonce who are really curvy and look absolutely stunning,' she says.

So common boys and girls, take control of your life! We humans come in all shapes and sizes and there's no 'correct' way to look. It's what you say and do that really matters. **(A48)** .....They're not what they seem! Anyway, why waste your time trying to live up to somebody else's ideal? Being fit and healthy is far more important. Just believe in yourself! After all, if you like yourself as you are, everyone else will probably end up liking you, too!
