

Choose the correct past tense. Use the past simple when it's possible.

AN EMBARRASSING EXPERIENCE!

I had an audition for a part in a new film. I was really excited because I ¹ in a film before. I ² the director either. I really ³ the part, so I ⁴ it for days.

As my appointment was early, I ⁵ to take the car because it was quicker. But I ⁶ enough time, so I arrived late. The car park was full, but suddenly I spotted a parking space. But just then, another car zoomed in and ⁷ my space! I was really angry, so I shouted at the driver. She got out of the car, just looked at me and walked away. When I finally found another parking space, I ⁸ my car and ran.

I ⁹ the other actors in the waiting area. Most of the actors ¹⁰ the audition already. When my name was called, I walked in and I ¹¹ the director. She was the woman who ¹² my parking space. I didn't get the part!
