

Nationals Parks

Listen to the following dialogue and fill in the text with the missing words :

nature	birds	camping	hotter	food	wildlife	fly
week	holiday	lakes				

Teacher: Ok so national parks are places where people sometimes go on _____. Can you guys tell me what you know about them?

Student 1 (Natalie): National parks are where you go usually _____ and most of the time in the summer. And camping is when you stay at least one night or you could spend maybe a _____ or however long you choose and you stay overnight in the _____. You could either bring a tent or you could sleep on the ground but I suggest you bring a tent because in the national parks we do have _____ which could be dangerous, for example brown bears or even sometimes racoons and that could be very dangerous so what a lot of the time people do is when they go camping they hang their leftover _____ in a bag and they hang it up in a tree so that any bears or racoons can't get to it. Or they put it in these tin bins that get locked up so nothing can get into it.

Student 2 (Julianna): When you go to a national park there are a lot of trees and there are a lot of different types of _____ like robins. I know when you wake up in the morning for camping you might hear them singing in the morning and they often _____ around your food.

Teacher: What about swimming? Can someone tell me about _____ in Canada?

Student 3 (Gabrielle): Lakes are usually very cold in the winter so it's not that good that to swim in if you're going in the winter but in the summer it's really fun to swim in the lakes.

Student 4 (Audrey): But it's best to swim in the lakes near the month of August because in June and in July it's often cold so August it gets _____ so you can swim there.
