A. Circle the correct words.

1.
A: Hello. I'd like to speak to a representative about the
1 installation / conservation of an environmentally-
friendly source of energy in my home.
B: I can help you with that. What kind of energy source are
you interested in?
A: Well, I am interested in something that is easy to
maintain, **2 cost-effective / constant** and at the same
time eco-friendly.
B: It sounds like **3 alternative sources / solar panels**
might be just the thing you're looking for. They can heat
water, power appliances and produce light! They are a
good **4 long-term / long-time** investment. Plus, they
have very low maintenance costs.

2.
A: So, Peter, what steps are you taking to reduce your
5 carbon footprint / exhaust fumes?
B: First of all, I am trying to **6 cut down on / dispose of**
the amount of time I spend traveling by car. I also
7 park / carpool with friends so that we can avoid
unnecessary driving.
A: That's good. What about around the house?
B: Well, I make sure I only use **8 energy efficient /**
eco-friendly products such as cleaning products
which don't contain harmful **9 chemicals / gases**.
Also, I try to save energy by unplugging all my
appliances when I'm not using them.

Corbett National Park

Corbett National Park is located in Northern India. In 1936 it was the first national park created in mainland Asia. At first it was 125mi² but finally the area was 1 ____ and now covers over 200mi². Corbett National Park is known for being involved in many 2 ____ such as Project Tiger, which protects Bengal tigers. However, it is also known for its beautiful and diverse landscape which consists of mountain ranges, rivers and forests. It is this diversity that 3 ____ to the variety of wildlife in the park.

In 4 ____ years, the park has seen increased tourism, with about 70,000 visitors per year. This is good because people are showing an interest in wildlife. However, this has not been entirely positive because the wildlife has been 5 ____ by the increase in tourism. For example, 6 ____ activities such as construction around the park have influenced the movement of wild animals, even though the park is a(n) 7 ____ area.

- William has decided to _____ his use of fossil fuels by riding his bike to work.
- Many doctors insist that the _____ of red meat is unhealthy.
- Plants absorb _____, so it's good to have a few in your house.
- We should all respect our planet more instead of taking it for _____.
- _____ from the exhaust pipes of cars are responsible for much of the air pollution in large cities.
- I buy only _____ appliances because I care about the environment.
- Governments need to take more _____ to help endangered animals.
- Turn on the air conditioner to _____ the room.

B. The paragraphs in the essay below are in jumbled order. Number the paragraphs in the order they should appear. Then circle the correct words.

HOW CAN WE CONSERVE OUR WATER SUPPLIES?

- ☐ **1 While / Besides** it is important to save water at home, corporations must also find ways to conserve our water. As employees, we can save water at our workplace and even help our employers understand that water conservation is also a way for them to save money. **2 Besides / Apart from that**, factories can reduce and recycle much of their waste instead of pumping it into rivers and lakes and polluting our water resources.
- ☐ **3 On the other hand / To sum up**, although there are many things we can do to protect our water supplies, most of us don't do everything we can. **4 Nevertheless / What is more**, in my opinion, it is never too late to start. If we work together, we can make sure that future generations will have enough clean water.
- ☐ **5 To begin with / Nevertheless**, it is important for us to try to reduce our own use of water. **6 Especially / For example**, we shouldn't leave the water running when we are brushing our teeth or taking a shower and we should also make sure the faucet doesn't leak. It is **7 also / although** important for us to pay attention to how much water we consume because we sometimes underestimate how much we are wasting. **8 particularly / whereas** when we take long showers.
- ☐ We need clean water to survive, so protecting our water supplies should be one of our top priorities. Fortunately, in recent years, various efforts have been made to raise awareness about water issues. **9 However / While**, individuals, corporations and the government can all do more to conserve our water supplies.
- ☐ **10 Finally / Particularly**, the government should also make laws to conserve water supplies. **11 For instance / Another idea**, water waste can be reduced by placing fines on people and companies that use more than they should. **12 Although / Furthermore**, the government can distribute educational flyers and create television commercials to inform people about the importance of water conservation.

C. Link the following pairs of sentences in two ways, using the words given and making any necessary changes.

1. There was a flood in the area. The houses weren't destroyed.

Nevertheless

Although

2. We should do something to help the environment. We can clean our local beach.

For instance

Such as

3. Carpooling is a great way to reduce your carbon footprint. It is not always easy to organize.

On the other hand

While

4. James gives money to the *Wildlife Fund*. He also volunteers for them.

Besides

Apart from

2. Choose a, b, c or d.

The Ozone Layer

The ozone layer is part of the Earth's atmosphere that protects us from the dangers of the sun. It is extremely important because without it, the sun's rays would pass through the atmosphere with 1 _____ consequences which would negatively affect all living 2 _____.

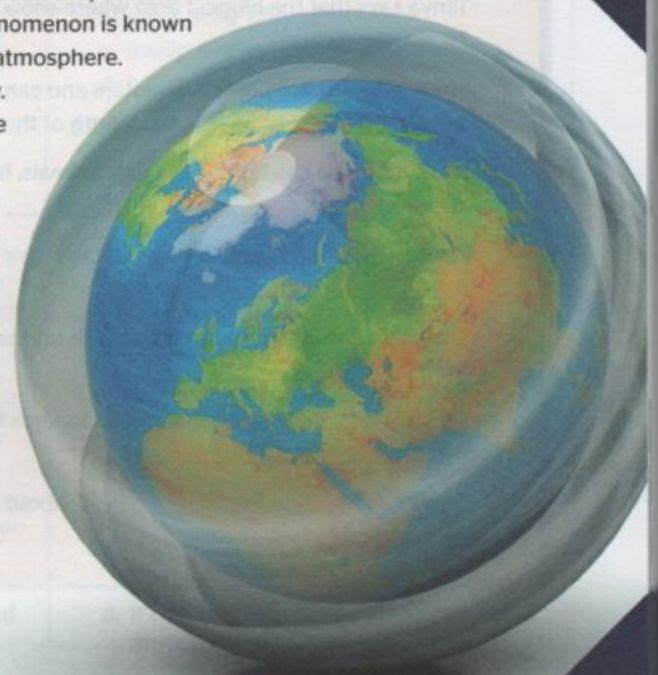

Scientists began to study the ozone layer in the 1970s, and in the mid 1980s they discovered that the ozone layer is slowly declining at a rate of 4% per decade. This phenomenon is known as ozone depletion and it is caused by the 3 _____ of chemicals into the atmosphere.

The serious 4 _____ that this will have on life may not seem obvious now.

However, in the future, ozone depletion will have negative 5 _____. These include global warming, an increase 6 _____ the occurrence of skin cancer and damage to agriculture.

Fortunately, in recent years, progress has been made in 7 _____ people's awareness of this issue. People have started to make efforts to limit activities which make matters worse in the hope of 8 _____ the damage that has been done.
