

UNIT 1 : WHERE ARE YOU FROM?

- Julia : Hi, Thomas. What are you doing?
- Thomas : I am helping my brother with his maths homework. He is in Year 1.
- Julia : My dad usually helps my brother with his maths homework. He is in Form One so I can't help him. What do you do every day after school? You always say that you are busy.
- Thomas : I am always in school from 7.00 a.m. to 1.00 p.m. Monday to Friday. After school, I always do my homework first. Sometimes I help my mother with the housework. At about half-past five, I usually go to the field near my house to play football. I never watch television on weekdays because I don't have the time. I usually watch television and play computer games during the weekends. What about you?
- Julia : Monday to Friday I am in school like you. I always take a nap after school. Later, I usually complete my homework and do a bit of revision. In the evening I sometimes go to my grandmother's house, which is nearby. I spend about two hours there. My cousins and I usually go jogging at the park near her house. I usually have my dinner with my grandmother. My father picks me up from her house at about eight. I go to bed at nine on weekdays. Like you, I never watch television on weekdays.
