

SIMPLE MATH OPERATIONS

➤ Read the following math operations and solve them.

1. Twenty plus four = _____
2. Ten plus eleven = _____
3. Forty one minus thirty = _____
4. Sixty five mins five = _____
5. Seventy plus ten = _____
6. Six times three = _____
7. Nine times two = _____
8. Two times three = _____
9. Ten plus ten = _____
10. Six times six = _____
11. Five minus four = _____
12. Twelve times two = _____
13. Fourteen minus nine = _____
14. Twenty plus twenty one = _____
15. One hundred minus thirty = _____

➤ Solve the mathematical operation then write the result in words.

1. $9 + 55 =$
2. $42 + 7 =$
3. $10 - 4 =$
4. $10 - 6 =$
5. $8 - 6 =$
6. $2 \times 11 =$
7. $2 \times 100 =$
8. $30 \div 5 =$
9. $18 \div 6 =$
