

LEARNING TECHNIQUES

BRAINSTORMING- ORGANIZE THE STUDY- DRAWINGS- TESTS- MNEMONICS RULES- MAKE YOUR OWN NOTES- STUDY SHEETS- EXERCISES/ CASES PRACTICE- UNDERLINE- MENTAL MAPS

Drawing is not only a memorization technique, but it is one of the most effective that exists.

The act of underlining is used to highlight all the most important sentences in the reading from the text.

Create a study calendar, prioritize the most important tasks, set a time limit, choose a quiet space to complete tasks.

consists of summarizing information for written papers or presentations.

It refers to memory and the use of mnemonic codes is nothing more than the implementation of acronyms, phrases, images or other elements that you can quickly associate mentally.

It is a graphic representation, a diagram, of ideas or concepts related to each other and that will help you organize and better understand the information related to a main topic.

It is a group work technique that consists of freely proposing ideas and associations based on a specific concept, with the purpose of obtaining innovative ideas.

They are cards that allow you to memorize concepts, dates, vocabulary or other types of content seen in classes.

This concept refers to tests designed to evaluate knowledge, skills or functions.

Performing exercises or solving practical cases are very useful to assimilate a theory in a simpler way.
