Fill in the gaps

The season's ice                      and believe me  
well it gets old  
   comes rolling in  
Freezing everything straight icicles  
building a                      bundle up it gets chilly  
got my                      on and my winter hat  
and I love my                      it's so pretty - It's not hot (no way)  
it gets pretty cold in the winter man - It's not hot (no way)  
I can't feel the ends of my                      man - It's not hot (no ma'am)  
kid say my                      you know who I am  
Jack Frost (oh yeah) and I'm sick and tired of that winter - (Break it down)  
season's                      hallelujah - Season's changing hallelujah  
cuz                      is here, I'm gonna prove it to ya  
the flowers are blooming, the                      is hot  
if you don't                      me just watch (come on)  
Spring is when the                      comes (uh)                      (x3)  
stop.  
Wait a minute, fill my cup, put some                      in it  
cuz                      's here and I feel the heat  
Julio, to the beach!  
back to sunshine flip-flops  
the                      is so pretty if you stay out in the sun too long  
you might get a little bit drippy - it's too hot (oh yeah)  
call the lifeguard and the                      - It's too hot (hot yeah)  
could the temperature be any higher man? - It's too hot (oh yeah)  
could                      please bring me a fan? - It's too hot (yes ma'am)  
I think I'm finally done with summer (break it down)  
season's changing hallelujah - Season's changing hallelujah  
cuz Fall is here, I'm gonna prove it to ya  
   and falling leaves  
if you don't believe me just watch (come on)  
   is when the wind blows (uh) -                      is when the wind blows -                      is when the wind blows  
now we know the names of the                      , four in all  
Winter turns to spring  
Summer turns to fall  
now we know the names of the seasons, four in all  
Winter Spring Summer Fall
