In the village children are taught to be more aware in all aspects of their lives, from catching a bus to walking home at night. Dogs to the Rescue

*Dogs are great companions. **A**_____ But did you know that apart from being wonderful pets, these canine friends have made a vast contribution to saving countless lives?*

SAR (Search and Rescue) dogs are used in search efforts to find missing people. They are specifically trained to find victims buried under snow or debris, so they can quickly be brought to safety. **B**_____ When it comes to emergency rescues, these dogs are fast and efficient, and their keen sense of smell enables them to locate accident victims much more quickly than humans.

Any breed of dog can be trained to be part of SAR rescue missions. **C**_____ First, they must be people-friendly. This is important, as the missing people they find are strangers, and many times the dogs have to stay with them and care for them until a rescue crew can get to them. **D**_____ This is because when the puppies are being trained, it is through fun and

game techniques that handlers are able to teach the necessary tasks to make them efficient rescuers later on.

Whether SAR dogs and their handlers work for a government agency or are volunteers, they go through extensive training and in many cases, have to pass a certification test. During basic training, the dogs learn how to detect and follow human scents. **E**_____ Avalanche dogs, for example, need to be able to dig and search in snow in very low temperatures. Other dogs are taught to walk over disaster areas carefully so as not to endanger victims under the debris. **F**_____

Whatever the task, SAR dogs are not only man's best friend, but in life-or-death situations, they are truly heroes!

1. It is also very important that they have a playful nature.
2. An SAR dog will even enter a burning building to save someone's life.
3. Trainers have to be careful when choosing the appropriate diet for an SAR dog.
4. After this, the dogs are taught a variety of tasks to prepare them for different kinds of emergencies.
5. A welcome addition to any household, they are loyal, affectionate and playful.
6. In snowstorms, earthquakes and landslides, SAR dog teams are usually the first on the scene.
7. However, they must have two basic characteristics.
