

into the **SPACE**

Activity

PART 1 Choose the answers from this box. An extra word does not belong to any of the statements.

universe	galaxy	black hole	spaceship
screen	Fuel	astronaut	planet
alien	engine	asteroid	

1. An _____ is a person who travels in rockets and spaceships and explores space.
2. An _____ is the part of a rocket or a spaceship that makes it go. It's like the rocket's "heart."
3. A _____ is a big, round object around the sun. Earth is a planet, and many others are in our solar system.
4. An _____ is a small rocky object in space that orbits the sun, usually found in the asteroid belt between Mars and Jupiter.
5. The _____ is everything that exists, including all the planets, stars, galaxies, and space.
6. A _____ is an area in space where gravity is so strong that nothing, not even light, can escape from it.
7. _____ is what makes rockets go. It's like the gas in a car, but it's special for rockets.
8. An _____ is a fictional or imaginary creature from another planet. People often imagine what aliens might look like.
9. A _____ is a huge group of stars, gas, dust, and planets held together by gravity. Our solar system is part of the Milky Way galaxy.
10. A _____ is like a TV or a computer monitor where you can see pictures and information.
