

into the SPACE Activity

PART 2 Choose the answers from this box. An extra word does not belong to any of the statements.

comet	control panel	future	gravity
lights	orbit	satellite	seat
spaceship	sun	telescope	

1. _____ means to move around an object in space, like how planets orbit the sun.
2. A _____ is like a dashboard in a car. It has buttons and switches that astronauts use to control the spaceship.
3. A _____ is a place to sit. In a spaceship or a rocket, astronauts sit in seats to stay safe during their journey.
4. _____ are things that make things bright. They help astronauts see in the dark.
5. The _____ is a huge, hot ball of burning gas in the sky that gives us light and heat.
6. The _____ is the time after the present. It's what happens tomorrow, next week, or when you grow up.
7. _____ is the force that pulls everything down toward the ground. It's what keeps us on Earth.
8. A _____ is a space object made of ice, dust, and gas that travels through space.
9. A _____ is an object in orbit around a planet, like the moon, or around Earth, used for communication, navigation, or scientific research.
10. A _____ is a vehicle designed for travel in outer space, carrying astronauts and equipment.
