MEGADETH- PROMISES

Two _____ that shouldn't talk to each other become close
In a town much like a _____ cell
People _____ our names on the street in hushed tones
Oh the _____ they'd tell if anyone would listen
If anyone would listen...

You come from a town where people don't _____saying "Hello"
Unless somebody's born or _____
And I come from a place where they _____ your hopes through the mud
Because their own dreams are all _____

And when we walk down the street
The wind _____ our names in _____songs
The sounds of the night should make us anxious
But it's much too late when the fear is gone

I will meet you in the _____ Life, I promise you
Where we can be together, I promise you
I will wait till then in _____, I promise you
I promise, I promise

There's so many fighting to get past the Pearly Gates
But nobody ever wants to die or get _____
Their _____ aren't that good and I can smell the asphalt
That's their personal road to Hell being paved

And when we walk down the street
The wind sings our names in rebel songs
And it's much too late when the fear is gone

I will meet you in the Next life, I promise you
Where we can be together, I promise you
I will wait till then in Heaven, I promise you
I promise, I promise

I will meet you in the Next Life, I promise you
Where we can be together, I promise you
I will wait till then in Heaven, I promise you
I promise, I promise
