READING 2 (Items 5–10)

(6 marks)

Read the text. Then complete the task.

Smoking is considered one of the increasing habits that spread in the world. Unfortunately, young people like to imitate their relatives or their stars and they pick up the smoking habit. This habit usually begins when boys try to experiment with every new thing that they can lay their hands on.

Many people argue that smoking has positives and negatives, but I believe that negatives are more than the positives. Maybe smoking can help some countries to increase their income as they have factories which make cigarettes or tobacco. For me, smoking should be banned in all cases because it causes lots of problems. It's so damaging to your body. It makes you smell bad and it's rude to make others around you smell it. It's unhealthy because it causes lung cancer, loud coughing, heart attacks, etc...

I have never tried smoking and I will never do so. I advise all smokers to quit smoking as soon as possible before it's too late.
