Exercise 3: Read the following passage and choose the letter A, B, C, or D to indicate the correct answer to each of the questions.

You know what they say: find a job you love and you will never work a day in your life. So, if you are thinking about what to do with your life, this may be something to consider. Choosing a career can be difficult. Especially because there are so many jobs to choose from and many things to think about, such as qualifications and financial rewards. So how do you pick a career? The only answer seems to be “choose one that makes you feel that you are getting paid for doing something you truly love”.

Unless you have grown up with a talent or are keen on something that you can make a career out of, you need to consider certain things about yourself. What suits your personality? We are all different and just because your best friend wants to be a doctor, this does not mean that you should follow. You need to make an **informed** decision. This means thinking carefully about the path you need to follow to get that job. Are you willing to get the training or education needed? You must also consider why you really want to do it. If it's just because it's well paid, then sometime in the future you are going to feel “empty”, even with a healthy bank account.

Nowadays, there are plenty of online career sites, but the main part has to come from you. You need to be honest and measure your skills and talents realistically. Also, you may need to talk to your parents who have their own ideas, based on their own experiences, about what you should do. They have your best interests at heart. **They** don't want to see you having financial problems or being unemployed. But at the end of the day, it is your life. There is no point in being miserable for the next forty years just to please someone else.

Question 36: Which could be the best title for the passage?

- A. Tips to have a well-paid job B. Choosing a career
C. Finding a Job Online D. The new era of job finding

Question 37: According to paragraph 1, what is the advice given for choosing a job?

- A. It's recommended that you should avoid a boring job.

B. You should choose a job that can be very demanding.

C. It's a good idea to find a paid job that you really like.

D. It's advisable to choose a highly-paid job.

Question 40: Which of the following is **NOT** mentioned in the passage?

A. A well-paid job may not satisfy you down the road.

B. You need to find a job that suits your personality.

C. Honesty is an important trait that ensures you a steady job.

D. You have to be responsible for your job choices.
