

1 3 4

A triangular number puzzle with a blue dinosaur on the right. The puzzle consists of a large triangle formed by smaller triangles. The top vertex is a blue square containing the number 2. The middle row has two blue squares containing 5 and 6, with an orange circle containing 60 between them. The bottom row has three blue squares, with orange circles containing 20 and 18 between them. The bottom row also has an orange circle containing 30 in the center. The dinosaur is blue with a yellow and orange frill.
