

## Worksheet 2 Making Multiplication Stories

- Look at the picture.  
Then fill in the blanks.

### Example

group

There are 3 groups.

There are 3 ducks in each group.

$$\underline{3} + \underline{3} + \underline{3} = \underline{9}$$

**Multiply** to find the total number of ducks.

$$3 \times \underline{3} = \underline{9}$$

multiplication equation

There are 9 ducks altogether.

**x is read as times.**  
**It means to multiply,**  
**or to put all the equal groups together.**

There are \_\_\_\_\_ groups.

Each group has \_\_\_\_\_ marbles.

$$3 + 3 + 3 + 3 = \underline{\hspace{2cm}}$$

$$4 \times \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

There are \_\_\_\_\_ marbles altogether.

There are \_\_\_\_\_ groups.

Each group has \_\_\_\_\_ hearts.

$$5 + 5 + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

$$6 \times \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

There are \_\_\_\_\_ hearts altogether.

There are \_\_\_\_\_ groups.

Each group has \_\_\_\_\_ watermelons.

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

$$4 \times \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

There are \_\_\_\_\_ watermelons altogether.

There are \_\_\_\_\_ baskets.

There are 6 eggs in each baskets.

$$\underline{\hspace{2cm}} \times \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

There are \_\_\_\_\_ eggs altogether.

2. Look at the picture.

Kaiwei wants to tell a story about the picture.

Which sentences should he choose?

Put a tick (✓) next to the sentences Kaiwei should choose.

(a) There are 4 apples.

☐

(b) There are 4 groups of apples.

☐

(c)  $4 \times 3 = 12$

☐

(d)  $4 + 4 + 4 + 4 = 16$

☐

(e)  $3 + 3 + 3 + 3 = 12$

☐

(f) 3 fours

☐

(g) 4 threes

☐

(h) There are 12 apples altogether.

☐

(i) There are 16 apples altogether.

☐
