III. Read the passage. Circle the best answer A, B or C to each of the questions.

The secrets to a long life

Why can some people live to over a hundred, while most of us die much sooner? How long you live depends on where you live. A person who lives in a city in Australia will probably live longer than a person living in a poor part of Africa. So, what can you do to live longer? You can make healthy choices. That means eating healthy foods and getting enough exercise.

Being overweight may make your life shorter because you have a higher chance to have health problems. You can start by changing what you eat. Eat less red meat instead of chicken or fish. Fish is really good for helping you live a longer life. You should eat lots of vegetables, so you can get a lot of the vitamins you need. You also need to get enough exercise. There are different types of exercises. Some exercise is good for the heart. Other types of exercise is good for making you stronger. Lifting weights is a good example. Along with taking care of your body, you also have to take care of your mind. Don't work too hard. Try to relax and do something fun each day. If you follow these simple rules, you will have a good chance of living a long time.
