Read the text and do the task after it:

I'm a typical student, I suppose.
I study hard during the week and go out with my friends at the weekend.
I don't have much free time but I've got lots of hobbies.
I play tennis occasionally, about once every two months, and I do judo every now and then when I'm at home with my family. I don't do any sport at university, though.
I watch TV most days for about an hour, but I hardly ever read.
No books, no magazines, nothing!
I listen to music all the time - in the car, in my room, when I'm doing homework, when I'm going to sleep. I love it. My favourite group is Coldplay but I like lots of different types of music. I go to concerts quite often, usually three or four times a year, and I always enjoy them.

My other big hobby is my computer.
I don't play games on it - I think they're boring - but I'm online nearly every day. I chat to my friends on Facebook and look at photos, and I download films and music. I love watching films. I watch a film on TV almost every day and I go to the cinema twice a month, more or less.
I don't like horror films - they're scary! - but I like romantic films and action films.
I never read books but I read the newspaper every day online.
I'm not into politics but I like reading about famous people. I think it's interesting.

So that's me. I'm a very ordinary person, really.
I'm not a sportsman but I like playing tennis and doing judo.
I'm not a bookworm but I love watching films and reading newspapers.
And I'm not a musician but I'm always listening to music.
