# SURVEILLANCE SOCIETIES

HD 4K 8K  
RAW

Governments have the right to spy on their citizens. Do you agree?

Recently, we discovered the **extent / range / scope** of the USA government's **supervision / surveillance / scrutiny** of its citizens, thanks to the confidential information leaked \_\_\_\_\_ Edward Snowden. Undoubtedly, other governments all \_\_\_\_\_ the world are doing exactly the same, all in the \_\_\_\_\_ of **safety / protection / security**. However, I \_\_\_\_\_ object to this **intrusion / invasion / disturbance** of citizens **privacy / confidentiality / privateness**.

\_\_\_\_\_, I believe that all people are innocent **until / unless / before** proven \_\_\_\_\_. Governments do not have the right \_\_\_\_\_ violate citizen's civil rights and **liberties / freedoms / independence** without solid **confirmation / evidence / proof** of any **unlawful / criminal / illegal** activity. \_\_\_\_\_ we allow governments to exercise **complete / total / irrevocable** control \_\_\_\_\_ citizens' lives, this can easily lead to a \_\_\_\_\_ more dangerous situation in which citizens \_\_\_\_\_ be arrested \_\_\_\_\_ **contradicting / opposing / disobeying** governments policies.

\_\_\_\_\_, the **random / indiscriminate / arbitrary** collecting, storing and **monitoring / detecting / analysing** of millions of phone conversations and e-mails \_\_\_\_\_ innocents citizens is an extremely time-\_\_\_\_\_ and expensive process. In my \_\_\_\_\_, government resources **must / ought / should** be used \_\_\_\_\_ a more selective and \_\_\_\_\_ effective \_\_\_\_\_.

I acknowledge that governments have a **duty / responsibility / oath** to take measures to protect national security. \_\_\_\_\_, I believe that no innocent person can ever be \_\_\_\_\_ safe in a surveillance society. Overall, it is not a good idea \_\_\_\_\_ citizens to **exchange / give / trade** freedom for security.
