

Read the text on page 76 Ex.2 in your Student's book. After that put the sentences in the right order.

Also, lots of people hunt even when they are not allowed to. Animals' habitats are being destroyed. Countries should help by sending food, tools and other things to help these people have better lives. Every little bit helps. Governments should protect areas where animals live and hunters should be sent to prison.

Governments should support these families. If we try, we can reduce the greenhouse gases that we put into the atmosphere, which make the Earth warmer. In some countries there are just too many people to feed. In some families, everybody has to work or there won't be enough food to eat. It hardly rains so crops can't grow and animals die. Our planet is getting hotter and hotter. They should also set up schools so children get an education that will help them find jobs when they are older. This causes changes in climate, sea levels are rising, ice caps are melting, animals and plants are dying. We can also save energy by taking the bus, riding a bike or walking. We can save on electricity by turning off the lights when we don't need them.
