2. Read about Peter and his pets. Write true or false (T/F).

When I get up in the morning, I always go and see my pets. They are always awake before I get up. I say "hello" to Betsy and Clover but I never play with them before school.

After school, I often play with my pet bird. It sometimes flies around my room and it sometimes sits on my shoulder.

In the afternoon, I always take Betsy and Clover for a walk. Sometimes, we go to the park and sometimes we go to the playground. I usually give them treats after the walk.

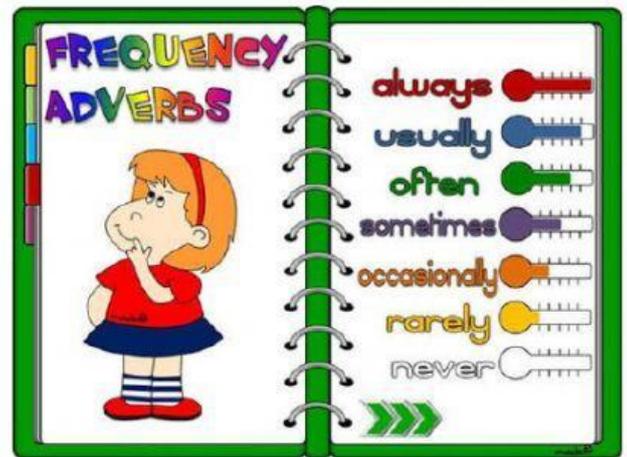

At night, my bird always sleeps in my room. Betsy and Clover never sleep in my room. They sleep in the garden. I love my pets! I want to get another pet, maybe a baby cat in the local animal shelter.

4. Make a new friend, adopt a pet!

Hi again! Here I am with my parents at the animal shelter. My parents love that dog but I want the cat. His name is carrot. It's so cute! I am holding him in my arms and he is very happy. I can't wait to take him home with me!

Do you know what an animal shelter is? It's a place that takes care of animals that need protection. It rescues abandoned or lost animals and try to find homes for them. There are shelters in every city and you can find many animals there: dogs, cats, birds and small animals. Many volunteers work here and you can be one of them.

So, if you want to add a new pet to your family, come and adopt one! Pets need you!
