35. I **think** Indian foods is **the nicer** than **Chinese**.

A. think B. the C. nicer C. Chinese

IV. READING: Read the passage and decide whether the sentences are True (T) of False (F).

ENDANGERED SPECIES

Today, some type of animals are an endangered species. This means there are very few animals of that kind left on Earth. The animals could face extinction. Extinction is when all the animals of that kind die. When a type of animal is extinct, it is gone forever.

One problem for animals is that their habitat is sometimes destroyed by humans. As human populations increase, more and more space is needed for people. Building areas for people to live pushed animals out of their natural homes. Forest and swamp habitats are the most threatened. Trees are cut down to make room for homes and businesses. Swamps are filled in so that neighborhoods can expand.

The habitat is destroyed. The animals have nowhere else to go. Without a habitat, the number of animals begins to go down.

	T	F
36. These days several kinds of animals are in danger of extinction.	T	
37. If a type of animal is extinct, some of them may survive.		F
38. Humans cut down trees in the forests because they need to build more houses.	T	

LIVEWORKSHEETS

39. As human populations increase, they live in the swamps.		F
40. The number of animals goes down because the number of habitats falls.	T	

Reading the following passage and choose the option (A, B, C or D) that best answers each of the questions below.

Dolphins are mammals that live in the ocean. Mammals are different that fish, reptiles or birds. As a mammal, dolphins breathe oxygen, even though they live in water. Because they are mammals, a dolphin mother gives birth to a live baby, unlike reptiles and birds who lay eggs. A dolphin mother also feeds her baby milk like other mammals.
