

MY HOBBIES

My name is Arthur and I'm 12 years old. I live in a small town near London. My hobbies are coding and podcasting. The laptop is a very important object in my life! But I also use the laptop to do my homework and to have fun. I love playing videogames! I also enjoy playing in a band. I play the guitar, my friend George plays the drums and Sophia sings with the microphone. However, I'm very nervous and I have no patience. So, I can't stand doing arts and crafts and I hate making things with beads. What about you?
