<u>Arranging a Party</u>

So you want to throw a party? Well, it's not as easy as you might think. Here are some tips to help you make sure your party is one to remember - for all the right reasons!

Firstly, you need to find _____ to your party. Have you thought about your house? If you have, think carefully again! Do you really want _____ you know in your parents' house? Probably not. So, look around your neighborhood to see if there are any places you can rent. You'll need to do this well in advance of the date you want.

Next, choose a theme for your party. This will help you decide on things like the music and the _____. For example, if you're having a Halloween party, you'll need to tell everyone to come in costume and you'll need to decorate the place with pumpkins and spider webs.

After that, you need to get _____ from your parents. _____ they know what you're planning and that they agree to it. Then, _____ the invitations. You can do this by email or by text message, but be careful who you invite and don't forget to tell them the time and the place!

On the day of the party, make sure you have everything ready. If you've _____ a DJ, make sure you've _____ and that they know what time they need to arrive. Also, make sure you've got _____ food and drink. Finally, _____ until the last minute. Start getting things ready early so you have plenty of time if anything goes wrong.

, try to get a good night's sleep. Then, give yourself a few hours on the day of the party to get the last few things ready. And _____ of all, relax and have fun!
