C. Circle the correct words.

Are social media sites destroying our social skills?

Social media sites like Facebook and Twitter **1 created / were created** to help us communicate and keep us informed about the latest news. People who want to communicate with others easily and fast are increasingly **2 using / being used** the Internet to do so. Researchers **3 have also found / have also been found** that more and more people prefer to use quick online interactions instead of face-to-face communication. Specifically, a study on this matter **4 states / is stated** that one in four people spends more time socializing on the Internet than in person. However, many concerns **5 have expressed / have been expressed** by experts on whether this overuse of technology is possibly destroying our social skills.

Communications expert Julie Meyers says, "Cell phones and e-mail **6 had already changed / had already been changed** personal relationships. Now personal relationships **7 have influenced / have been influenced** by social media, too." However, we must remember that face-to-face communication can't **8 replace / be replaced** by technology so easily. You **9 will gain / will be gained** much more if you put down your smartphone or tablet and talk with friends than if you post a message online.
