Instrucciones: Lee el siguiente párrafo y elige la opción correcta (a, b o c) que mejor complete cada enunciado.

"Understanding Environmental Impact"

The environment is the surroundings in which we live. It includes everything from the air we breathe to the water we drink. There are many different ecosystems, each with its own plants and animals. Unfortunately, human activities often lead to the (1) _____ of these ecosystems. One major issue is air (2) _____, caused by factories and cars. This leads to poor air quality and health problems for people and animals. Another problem is water (3) _____, mainly from dumping waste into rivers and oceans. This affects marine life and can make water unsafe for drinking. Lastly, soil (4) _____ happens when chemicals are released into the ground, harming plants and animals. Dale un título a este texto
