Computers and you

Two students talk about computers

Maya

I don't have a computer at home but I can use the ones in the library or at school. I usually surf the Internet and I look for websites that interest me. I like websites with videos of presentations and I also like some music sites. I like playing the songs I find online but I never play games – I can't stand them! Sometimes I use the computer to write things for school. You can make projects look very nice when you use a computer. You can include photos and other visuals with your text.

Seb

I love technology! I've got a computer and a tablet. My computer is in my bedroom. I use it for my homework but I also play games on it. It's got a webcam so I can chat with other players online. The games are brilliant. They have fantastic stories and visuals. I only use my tablet when I'm at school. It's small so I can put it in my bag easily. Sometimes my teacher does activities in class on the school computer and we can connect our tablets. We also use them to give presentations.
