

Simplifying Fractions – Gap fill and Match

You may need to work out your answers on paper first. There is only space for your final answer on this worksheet.

Simplify the fractions:

1)	$\frac{8}{20} = \frac{\boxed{}}{\boxed{}}$	2)	$\frac{10}{20} = \frac{\boxed{}}{\boxed{}}$
----	--	----	---

3)	$\frac{9}{21} = \frac{\boxed{}}{\boxed{}}$	4)	$\frac{25}{40} = \frac{\boxed{}}{\boxed{}}$
----	--	----	---

5)	$\frac{16}{24} = \frac{\boxed{}}{\boxed{}}$	6)	$\frac{60}{66} = \frac{\boxed{}}{\boxed{}}$
----	---	----	---

Match each fraction to the simplified equivalent:

$$\frac{18}{24}$$

$$\frac{6}{60}$$

$$\frac{12}{60}$$

$$\frac{40}{60}$$

$$\frac{2}{3}$$

$$\frac{3}{4}$$

$$\frac{1}{5}$$

$$\frac{1}{10}$$
