Getting up early! Think about it: you would be [1]_____ more productive if you got up really early, like two or three hours before you start your workday. You would have [2]_____ time to exercise, plan your day, and do the kinds of things that it can be impossible to find time for once you leave the house for work.

Great idea! The only problem I see is not getting [3]_____ sleep. To work well, you have to sleep well. I read somewhere that Einstein preferred to get at least 10 hours of sleep a night! For most people, 10 hours would probably seem like [4]_____ hours to spend asleep, but I think we need at least seven hours to think clearly and be creative—or at least I do!

How [7]_____ time in a day do you think we should dedicate to our social life?

Jacopo21

An hour a day?
